

**AMENDMENTS TO THE SPECIFICATION**

Please amend paragraph 34 as follows:

[0034] For a 64-ounce plastic container having an outer perimeter of approximately 414 mm and as depicted in FIGS. 5A and 5B, the vertical length of the vacuum panels is approximately 77 mm and the width of the panel is approximately 51 or 55 mm. The height of the depicted container is about 262 mm. The length and width of the base are, respectively, about 118 mm by about 94 or 89 mm. The depicted ribs have a length of 95 mm and width of approximately 9 mm. The depicted distance between adjacent ribs is approximately 13 mm, as measured from the respective inner edges. The depth of the depicted ribs in the label area is approximately 3 mm. The distance from the outer edge of upper most rib to the outer edge of the lowest rib, as depicted on the front side of the container, is approximately 74 mm.
